Subject: Scheduled Maintenance - XML API - Sunday, 8th June 2008, 08:00hrs - 12:00hrs BST

Dear Customer,

Notice of scheduled maintenance

Please note that we have the following scheduled unavailability of our XML Interface sites:

From: Sunday 8th June 2008, 08:00hrs London time
To: Sunday 8th June 2008, 12:00hrs London time

Kindly note that the completion time of this work is approximate. Contingency for any problems have already been built into this down time, however, in the event of any serious problems occurring, these timings are subject to change at short notice.

Affected Environment: Live
Reason: Planned install

Impact: The XML API sites will be entirely unavailable and you will not be able to connect to them at all for static data, price and allotment searches or booking requests.

During this install you can check for updates on our support site: <http://xml-support.gta-travel.com/LoginPage.asp> then clicking on the appropriate link under 'Service Information'.

Please accept our apologies for any inconvenience this unavailability of our XML API and XML call centre sites causes you.

Below you will find a list of all changes that will be made on this day that will affect your XML connection.

1. OCT-922 - New functionality that auto-sends vouchers for confirmed XML bookings

It is now possible to pass the passenger's email address in the following XML booking messages:

- <AddBookingRequest>
- <AddBookingResponse>
- <ModifyBookingRequest>
- <ModifyBookingResponse>

If the <PassengerEmail> parameter has been passed through with these XML request messages the GTA system will automatically generate an email to the specified email address with the vouchers for all confirmed booking items held under the relevant booking reference. Please see the attached documents for further information about this.
