**Subject:** Scheduled Maintenance - XML API - Sunday, 22nd March 2009, 08:00hrs - 12:00hrs GMT

Dear Customer,

**Notice of scheduled maintenance**

Please note that we have the following scheduled unavailability of our XML Interface sites:

From: Sunday 22nd March 2009, 08:00hrs London time  
To: Sunday 22nd March 2009, 12:00hrs London time

Kindly note that the completion time of this work is approximate. Contingency for any problems have already been built into this down-time, however, in the event of any serious problems occurring, these timings are subject to change at short notice.

Affected Environment: Live

Reason: Planned install

Impact: The XML API sites will be entirely unavailable and you will not be able to connect to them at all for static data, price and allotment searches or booking requests.

During this install you can check for updates on our support site: <http://xml-support.gta-travel.com> then clicking on the appropriate link under 'Service Information'.

Please accept our apologies for any inconvenience this unavailability of our XML API and XML call centre sites causes you.

\*\*\*\*\*

Below you will find a list of all changes that will be made on this day that will affect your XML connection.

**1. Schema Changes For The 'PaxId' Attribute**

Until now the schema allowed 3-digit entries for the 'PaxId' attribute. This has now been changed and only 1-digit and 2-digit entries are permitted.

**2. Schema Changes For The <SearchSpecialOfferRequest>**

Due to the size of our Special Offers file searches on global level were timing out. We have now made a change to the schema to the effect that either the <Country> or the <City> parameter **must** be specified in the XML request. Please see the attached document (Update Dta.2.1-15) for further information about this.

\*\*\*\*\*

The latest version of the schema as well as the appropriate update documents have been attached to this email, but you can also find this information on our support site <http://xml-support.gta-travel.com>. All changes will be available for testing on our demo servers shortly.

\*\*\*\*\*

Please note this email account is not monitored and all messages received will automatically be deleted.
